Regional Standards for Performance Tasks in Science

The final documents for the Coast Metro Regional Standards for Performance Tasks in Science, K-6 can be found at the links below. There is an individual document for each grade, plus a Primary doc that is a compilation of K-3.

As all the documents include scanned student work and are therefore very large files which may take some time to download; please be patient.

You will notice that there is a 'hole' in grade 5 Life Science. If you know teachers who would be interested in submitting a performance task and student samples, please have them contact Anita Chapman, anitachapman@shaw.ca.

We are still working to determine whether we have enough material for grades 7, 8, and 9 to produce either draft or final documents.

Many thanks to the supporting districts, team leaders, and classroom teachers who worked and learned together over a number of years to produce these regional standards.
